

Competitive Battle Card: SentinellQ

Status: Battle card

Last verified: 2026-01-15

SentinellQ is strong on rules-based AML but has no sub-200ms real-time ML scoring; Kestrel real-time scoring is GA. Both are SOC 2 Type II. SentinellQ has no Jack Henry Symitar integration; Kestrel does.

Position on real-time ML and credit-union core coverage. Verify any SentinellQ capability claim against their current materials before stating it to the buyer.
